MUNALI SHAKYA
ASPIRING SOFTWARE DEVELOPER

Email: munali.shakya@gmail.com
Phone: 9840095558
GitHub: github.com/Munali1

A highly motivated and passionate software developer with a strong foundation in ASP.NET, HTML, CSS, and SQL. Adept at creating efficient, user-friendly web solutions. With experience managing complex projects and collaborating with teams, I excel in problem-solving and delivering innovative digital solutions. Excited to bring my technical expertise, leadership, and creativity to a professional setting. Currently pursuing a Bachelor's degree in Computer Science and Information Technology, with a solid academic track record and hands-on project experience.

TECHNICAL SKILL

Languages & Frameworks: ASP.NET, C#, HTML, CSS, JavaScript, SQL, PHP, Java C C++ ,Entity Framework
Databases: MySQL, SQL Server
Tools & Platforms: Visual Studio, Visual Studio Code, Apache Net Beans , Dev C
Other Skills: Project Management, Role-based Authentication, Payment Gateway Integration

EDUCATION

Bachelor of Science in Computer Science and Information Technology (Expected 2025)
St. Xavier's College, Maitighar
Percentage: 85% (Aggregate)
Relevant Coursework: Software Engineering, Database Management, Web Technologies

+2 Science
2018-2020
St. Mary's High School, Jawalakhel
CGPA: 3.79

Secondary Education Examination(SEE)
2008-2018
St. Mary's High School, Jawalakhel
CGPA: 3.85

PROJECTS

E-commerce Platform (Daraz Clone) – ASP.NET MVC
- Developed a comprehensive e-commerce platform where admins manage users and products, while customers can browse, add/remove items from the cart, and place orders.
- Integrated robust admin features to streamline inventory and user management.
- Result: Improved user experience with a fast, intuitive interface and simplified backend management.

GovConnect Project – ASP.NET
- Built a centralized e-Governance portal enabling data exchange between citizens and government entities.
- Implemented features to enhance citizen engagement and streamline access to government services.
- Result: Facilitated smoother communication across departments and improved overall citizen satisfaction.

Employee Management System – ASP.NET
- Designed and implemented role-based authentication with ASP.NET Identity for secure employee registration and data management.
- Admin users can manage employee information, while employees have personalized access to view their profiles.
- Result: Increased data security and streamlined HR processes by automating employee data handling.

Fusion Footwear – HTML, CSS, PHP
- Created a dynamic e-commerce website for a footwear store, focusing on user experience and secure payment integration.
- Integrated reliable payment gateways to ensure smooth transactions and enhance customer trust.
- Result: Improved shopping experience with a clean, responsive interface and seamless transaction processing.

EXPERIENCES

NYC MUN 2023 – USG of Operations
February 2023-June 2023
- Successfully organized a national-level Model United Nations (MUN) event with over 200 participants.
- Managed logistics, operations, and budget, resulting in a 20% cost reduction through effective resource allocation.

SXC MUN 2022 – USG of Operations
September 2022-November 2022
- Led the organization of St. Xavier's College's first MUN event. Oversaw logistics, venue selection, and crisis management, ensuring a smooth and cost-effective conference.

Abhaya: Executive Member
December 2022-April 2023
- Coordinated "Fight Back" sessions aimed at raising awareness and preventing gender-based violence.
- Organized panel discussions, contributing to increased campus awareness and participation by 50%.
